Grass (Forage) Fed – Grass and forage shall be the feed source consumed for the lifetime of the ruminating animal, with the exception of milk consumed prior to weaning. The diet shall be derived solely from forage consisting of grass (annual and perennial), forbs (e.g., legumes, Brassica), browse, or cereal grain crops in the vegetative (pre-grain) state. Animals cannot be fed any grain or grain byproducts and must have continuous access to pasture during the growing season. Hay, haylage, baleage, silage, crop residue without grain, and other roughage sources may also be included as acceptable feed sources. Routine mineral and vitamin supplementation may also be included in the feeding regimen.

I/We _____ at _____ guarantee

the feed source supplied to the bison listed above complies with the dietary regimen described above.
